

CASTED

Casting And Splinting Techniques in the Emergency Department

*Designed specifically for
ED physicians and staff*

One day course offered on:

105.03
105.04

Toronto, ON

The “Hands-On”
ED Orthopedics Course

“CASTED WAS MORE RELEVANT TO MY PRACTICE THAN ALL MY MONTHS OF ORTHO TRAINING COMBINED”

— Dr. D.N., MD, CCFP

CASTED is the ‘hands-on’ ED orthopedics course designed specifically for emergency department physicians and staff.

CASTED offers numerous clinical pearls on:

- history, physical and investigations
- making more accurate diagnoses
- recognizing the ‘red flag’ patients
- knowing who needs a reduction
- fracture and dislocation reduction and molding techniques
- understanding who needs to see ortho and when.

Combining case presentations with over 4 hours of ‘hands-on’ casting and splinting, **CASTED** reviews:

- ED orthopedic principles
- ED management of over 80 specific diagnoses
- numerous ED casting, splinting and reduction techniques.

During the course, as you put on casts and splints, **CASTED** faculty will offer instruction on the proper application and molding techniques. By the end of the course, you will have the confidence that you are doing it right!

CASTED is presented by **Dr. Arun Sayal**, an emergency physician who also runs a weekly Minor Fracture Clinic at North York General Hospital in Toronto. He has presented over 100 ED orthopedic workshops and lectures, received over a dozen teaching awards, and all without ever mentioning the words “osteoclast”, “cancellous”, or “consider a 12mm lag screw”!

CASTED limits the number of participants per course to allow for more direct supervision and interaction. **CASTED** promises a day full of humour and numerous clinical pearls that you will use on your next shift!

CME Accreditation:

CFPC: This program meets the accreditation criteria of the College of Family Physicians of Canada and has been accredited for up to **9.0 Mainpro-C** credits.
